REFUSE & RECYCLING REMOVAL

INTERSTATE WASTE

Effective January 1st 2011, Interstate Waste became the trash hauler for the Village of Walden. For some, this was a seamless transition. For others, we ask for your patience and understanding as this transition completes itself. New 32 gallon receptacles are being provided to every household in the Village. It is intended to be used as a "single-stream" recycling bin. However, if you are content with your current bins, it may be used for trash.

Should you experience interruption or other problems with trash collection, kindly call the Village offices at 778-2177. We will contact Interstate on your behalf, and want to be aware of any issues with our contractor. You may also call the company directly, their customer service line is: 469-8407

Through the bidding process the Village was able to keep your Refuse bill the SAME as in 2010!

SINGLE STREAM RECYCLING

Single-Stream recycling is a recycling process in which materials are collected all mingled together with no sorting required by individual recyclers. Once the single-stream materials are collected and transported to a Materials Recovery Facility and separated & sent to their respective markets for sale.

Items suitable for single-stream include:

- Newspapers, Brown Paper Bags
- Magazines & Catalogs
- Junk mail/Envelopes
- Paper & Paperboard (cereal/tissue boxes)
- Cardboard
- Plastic Bottles & Plastic Grocery Bags
- Glass bottles & jars of any color
- Metal cans (tin/steel/aluminum)

If you have any questions about whether a product can be included, please call the Citizen's Response Line at 1-800-404-7080.
